Art Unit:

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a system for sensing, storing and updating operational parameters, visual conditions and audible conditions associated with an automotive vehicle, comprising microprocessor control means responsive to vehicle operational parameters which have been registered by the plurality of sensors for processing the operational parameters and video images and audio signals from digital video/audio camera; and rewritable no-volatile memory means for storing processed operational parameters, visual images and audio signals which are provided by microprocessor control means; and the microprocessor control means updating the rewritable memory as new parameters, visual images and audio signals are sensed. Nor does it disclose a method for recording events relating to an accident involving an automotive vehicle, wherein the method performs the steps above. These limitations are neither taught nor obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
